

INTERMEDIATE UNIT 20:

PRIORITIES

300.225

Colonial Northampton Intermediate Unit #20 is committed to the priorities as we outlined in our current Special Education Plan. We are very interested in increasing Physical Therapy and Occupational Therapy so we may deplete our contracted costs for these services and provide more effective and efficient services to our local school districts.

Our Intermediate Unit is also committed to encouraging members of our professional staff working in school districts to become an integral working member of school district strategies planning committees thus help school districts set district priorities and move to accomplish them.
