WILSON AREA
SCHOOL DISTRICT

SECTION: **INSTRUCTION**

Policy #6176
Adopted 06/07/10
Revised 10/07/13

TITLE: **ACCEPTABLE USE OF INTERNET AND
COMPUTER TECHNOLOGY**

1. Purpose	Wilson Area School District ("School District") may provide employees, students, and guests ("users") with access to the School District's electronic communication systems and network, which may include Internet access, whether wired or wireless, or by any other means. Guests include, but are not limited to, visitors, substitute teachers, workshop attendees, volunteers, independent contractors, adult education staff, students, and board members.
	The Board supports use of the Internet and other computer networks in the District's instructional and operational programs in order to facilitate learning, teaching, and daily operations through interpersonal communications and access to information, research, and collaboration.
	For instructional purposes, the use of network facilities shall be consistent with the curriculum adopted by the School District as well as the varied instructional needs, learning styles, abilities, and developmental levels of students.
	Users may not use their personal computer or other devices to connect to the School District's internal network, Internet, or other technology resources unless approved by the building principal or his/her designee and/or authorized as part of the School District's services for users.
2. Authority	The electronic information available to students and staff does not imply endorsement by the District of the content, nor does the District guarantee the accuracy of information received. The District shall not be responsible for any information that may be lost, damaged, or unavailable when using the network or for any information that is retrieved via the Internet.
	The District shall not be responsible for any unauthorized charges or fees resulting from access to the Internet. The District shall not be liable for the loss, damage, misuse, theft of any personally owned device brought to schools within the District.
	The District reserves the right to view and monitor all applications provided through the network, including email, to log Internet use by

users, and to monitor file server space utilization by District and outside users. This includes all District owned devices as well as personal devices connected to District network or Internet, when administration has a reasonable suspicion that a violation has occurred.

As required by law, the District will utilize filtering software to restrict and monitor the use of the Internet, email, blogs, and chat.

The Board establishes that network use is a privilege, not a right. Inappropriate, unauthorized and illegal use will result in cancellation of those privileges and appropriate disciplinary action.

Personnel under contract with the District, such as consultants, are bound by the terms of this policy when using the Internet within the District.

The Board establishes that the following materials, in addition to those stated in law, are inappropriate for access by minors: visual, graphic text, and any other form of obscene, child pornography, or other material harmful to minors; material advocating terrorism and evil, hateful, illegal, defamatory, harassing, and other materials promoting or condoning extreme violence. The School District will cooperate to the extent legally required with local, state and federal officials in any investigation concerning or related to the inappropriate use of District technology.

3. Delegation of Responsibility	The District shall make every effort to ensure that students and staff use this resource responsibly.
	This includes educating students about appropriate online behavior, including the integration of instruction that focuses on social networking interaction, chat room communication, cyber bullying awareness and prevention.
	Administrators, teachers, and staff have a professional responsibility to work together to help students develop the intellectual skills necessary to discriminate among information sources, to identify information appropriate to their age and developmental levels, and to evaluate and use the information to meet their educational goals.
	Students and staff have the responsibility to respect and protect the rights of every other user in the District and on the Internet. All staff and students are responsible for reading and following this policy.
	In the event, student online behaviors are disruptive to the educational process of the District, offenders shall be the subject of appropriate school discipline, as well as, legal and/or police proceedings;

	including the right to discipline students for actions taken off-campus if they are intended to have an effect on another student or they adversely affect the safety and well-being of students while in school.
	The building administrator, working in conjunction with the Superintendent, shall have the authority to determine what is inappropriate use and the consequences for inappropriate use.
	The Superintendent or designee shall be responsible for implementing technology and procedures to determine whether the District's computers are being used for purposes prohibited by law or for accessing sexually explicit materials. The procedure shall include but not be limited to:
	1. Utilizing a technology protection measure that blocks or filters Internet access for minors and adults to certain visual depictions that are obscene, child pornography, harmful to minors with respect to use by minors, or determined inappropriate for use by minors by the Board.
	2. Maintaining and securing a usage log.
	3. Monitoring online activities of minors.
	Use Of Non-District Internet Access During School Hours, On School Grounds Or At School Functions
	The provisions of this policy shall also apply to student and employee use of the Internet and other network access not provided by the District, including personal Internet access through laptops and mobile devices, when such access occurs during school hours, on school grounds, or at school functions.
4. Guidelines	Network accounts shall be used only by the authorized owner of the account for its approved purpose. All communications and information accessible via the network should be assumed to be public. Users have no privacy expectations in the contents of their personal files or any of their use of District technology. Network users shall respect the privacy of other users on the system.

Prohibitions

Students and staff are expected to act in a responsible, ethical, and legal manner in accordance with District policy, accepted rules of network etiquette, and federal and state law. Specifically, the following uses are prohibited:

Incidental personal use is permitted for employees as long as such use does not interfere with the employee's job duties and performance, with system operations, or with other system users. Personal use must comply with this policy and all other applicable School District policies, procedures, and rules.

Students may only use the District's network for educational purposes. The District reserves the right to revoke the privilege of remaining in or enrolling in courses that require access to technology when a student violates this policy.

Security

System security is protected through the use of passwords. Failure to adequately protect or update passwords could result in unauthorized access to personal or District files. To protect the integrity of the system, the following guidelines shall be followed:

1. Employees and students shall not reveal their passwords to another individual.

2. Users are not to use a computer that has been logged in under another student's or employee's name.

3. Any user identified as a security risk or having a history of problems with other computer systems may be denied access to the network.

4. Users are required to log off of the network when finished.

Consequences For Inappropriate Use

The network user shall be responsible for damages to the equipment, systems, and software resulting from deliberate or willful acts. Any and all cost incurred by the District for repairs and/or replacement of software, hardware, and data files will be the responsibility of the user who has created the problem.

Illegal use of the network: intentional deletion or damage to files of data belonging to others: copyright violations; and theft of services will be reported to the appropriate legal authorities for possible prosecution.

General rules for behavior and communications apply when using the Internet, in addition to the stipulations of this policy. Loss of access, **loss of privilege to use personal devices on school property,** and other disciplinary actions shall be consequences for inappropriate use.

Vandalism will result in cancellation of access privileges. Vandalism is defined as any malicious attempt to harm or destroy data of another user, Internet or other networks; this includes but is not limited to uploading or creating computer viruses.

Copyright

The illegal use of copyrighted software by students and staff is prohibited. Any data uploaded to or downloaded from the network shall be subject to fair use guidelines.

Safety

To the greatest extent possible, users of the network will be protected from harassment and unwanted or unsolicited communication. Any network user who receives threatening or unwelcome communications shall report such immediately to a teacher or administrator. Network users shall not reveal personal information to other users on the network, including chat rooms, e-mail, Internet, etc.

The School District reserves the right to legally access users personal technology devices brought on to school property, or to School District events, or connected to the School District network, when the

School District reasonably believes they contain information that violates a School District policy, or contain information/date that is involved in a criminal activity.

Any District computer/server utilized by students and staff shall be equipped with Internet blocking/filtering software.

Internet safety measures shall effectively address the following:

1. Control of access by minors to inappropriate matter on the Internet and World Wide Web.

2. Safety and security of minors when using electronic mail, chat rooms, and other forms of direct electronic communications.

3. Prevention of unauthorized online access by minors, including "hacking" and other unlawful activities.

4. Unauthorized disclosure, use, and dissemination of personal information regarding minors.

5. Restriction of minor's access to materials harmful to them.
